

The Daily Courant.

Saturday, June 8. 1717.

From the Amst. Courant, dated June 13.

Naples, May 18.

ON Friday last two Gallies from Tuscany arrived at Pozzuolo, and the Sunday following they sailed for the Levant.

From the Amst. Courant, dated June 10.

Rome, May 22. The Chevalier de St. George is expected here next Week, the Pope desiring very much to see him; and Cardinal Quirini is going to meet him. We hear he will lodge at the Palace of that Cardinal, altho' the Pope would have him take up his Residence in the Vatican.

From the Hague Courant, dated June 11.

Leghorn, May 22. According to the Report of the Captain of an English Ship Nicholas, who put in here last Sunday from Smyrna, the Turkish Fleet lay in the Dardanelles, ready to take up 42 Men of War and 2 Gallies, under the Command of the Batta of Leids; and the Grand Seignior was still at his Court at Adrianople.

Genoa, May 22. The Captain of an English Ship arrived here in 21 Days from Lisbon relates, that he sail'd with the Portuguese Squadron, commanded by the Count de Rios, and parted with them 11 Days before, at the Cape of Gatta; and 'tis suppos'd they may by this Time be arrived in the Height of Malta. It consists of seven large Men of War, two Fire-ships, one Hospital ship, and 2 Transports. All the Ships are well arm'd, and that of the Commodore is mounted with 80 Brass Cannon. Cardinal del Giudici departed from hence last Wednesday for Turin, and 'tis said he will return hither before he goes to Rome.

From the Amst. Courant, dated June 12.

Vienna, May 29. The Imperial Troops in Hungary, which consist of 120000 Men, are divided into two Armies, the larger whereof lies near Futack, upon the Danube, and the lesser in the Territory of Temeswaer. The Turks are encamp'd with 100000 Men not far from Orsova, and they seem to intend to fall upon the lesser Army, under the Command of General Count Merci. At the same time, the Enemy came over the Save from Belgrade in great Numbers; and 'tis concluded that they will there intrench themselves, and expect us.

Ratisbon, May 31. His Imperial Majesty having given the Investitures to the Electors of Cologne and Bavaria, and the Elector Palatine, conformably to the Treaty of Rastadt, the Ministers of those Princes made their Entry here last Friday, with rich and magnificent Equipages. The Elector of Bavaria being by that Peace restor'd to his former Posts, the Elector Palatine gives him Place, but the Minister of Brunswick

refuses to do so, on Account of the Office of Arch-Treasurer of the Empire, with which the Elector his Master is invested, till he receives express Order thereupon, from his Majesty the King of Great-Britain.

The Administrator of Holstein Gottorp, has addres'd himself a-new to the Emperor and the Diet, to complain of Injustice the King of Denmark does that Family. But the Danish Minister having already answer'd those Complaints, it is suppos'd the Diet will refer the Decision of it to the next Negotiations for a Peace in the North.

His Eminence Cardinal de Saxe-Bismark is going near to Carlsbad to speak with the King of Bohemia. It is presum'd that he will treat more of Affairs of Consequence, being his said Majesty causes so many of his Counsellors and Chaplains to attend him there.

Hague, June 11. The Emperor's Minister Baron Heems, having deliver'd to their High Mightinesses a Letter from his Imperial Majesty, whereby Notification is made to them, of the Birth of the Archduchess Maria Theresia, their High Mightinesses have given Order to their Agent the-Sieur Rooleboom to go to compliment in their Name, the said Envoy thereupon. They have also resolv'd to send to their Minister residing at Vienna an Answer containing the Congratulations suitable to such an Occasion.

The Minister of his Czarish Majesty who resides ordinarily at Berlin, is come hither, to see his Father the Great Chancellour of the Czar, who attends the Czarina. It is apparent he intends to tarry very little in this Country, especially since the King of Prussia is returned to Berlin, after having made a Review of his Troops in the Countries of Cleves and Guelderland. And thereby the Reports concerning the Journey of that Prince to Paris, which some People took Pleasure in spreading abroad, are intirely destroy'd. His Minister here, the-Sieur Meindershagen, has lately been in Conference with their Highnesses, upon the Affair of the Succession of Orange. And he has also made Complaints against the West India Company, upon the Subject of a Ship taken by the said Company, which Affair will be soon decided. The Count de Tarouca Ambassador of Portugal, has also presented a Memorial against the said Company, who have as he pretends, taken 17 Portuguese Ships laden with Negroes, bound to Brasil, which were for the most part sold, and for which his Portuguese Majesty pretends to 900000 Crown for Satisfaction. But the said Company declare, they can prove that those Prizes were made by Pyrates, who in all Times and Places are punishable with Death when they are taken.

The Count de Reven, Minister of Holstein, is gone again to take a Turn to Arnheim, to endeavour

deavour to speak with Baron Gortz, but there is little Probability that he will obtain Permission. Mr. Whitworth the British Minister, has agreed with the Magistrates of Arnheim, that they may furnish two Chambers in that City, at the Expence of the King of Great-Britain for that Baron to lodge in, upon Condition that all Access to him be forbid, and that they deny him the use of Pen, Ink, or Paper, and that his Linnen, and all that he has Occasion for, shall pass thro' the Hands of the Keeper, without letting any of his Domesticks come to him.

These are to give Notice to all Persons

who have Occasion to buy Coals, That if they please to apply themselves (to the Factors who keep their Office at the Dog Tavern near Billingsgate) may be served with any Sort at a reasonable Rate: And for the Satisfaction of the Buyers, and that they may not be impos'd upon, Certificates will be produc'd of the Masters Names, the Ships Names, and the Quality of the Coals each Ship is laden with, which will undoubtedly prevent the gross Abuses in mixing of Coals, and delivering of one Sort for another, which has been too long practiced, and consequently a great Detriment to the Consumers. All Buyers are advised to provide their Coals at present, for the Importation was 70000 Chaldrons less the 15th Instant than it was the same time the last Year, (this has been occasion'd for want of the Ships being discharg'd when at Market) besides the great stock that was then laid up, which are all sold, so that Coals must inevitably advance; the Prices now are from 25 to 27 s. 6 d. per Chaldron.
